BACKGROUND
WHY BOAS
BASIC ORDERING AGREEMENTS (BOAS)

• A BOA is **NOT** a contract
• There is **NO CEILING** associated with BOAs
• A BOA is an agreement between the Government and a contractor
  • “Application. A basic ordering agreement may be used to *expedite contracting* for uncertain requirements for supplies or services when *specific items, quantities, and prices are not known* at the time the agreement is executed, but a *substantial number of requirements* for the type of supplies or services covered by the agreement are anticipated to be purchased from the contractor.” FAR 16.703(b)
• Platform One has established BOAs with a *pool of vetted contractors* for specific supplies and/or services

The BOAs are a TOOL (one option)

The intent of the BOAs is to provide the ability for the Government to access a vetted contractor pool to support an accelerated path to contract award

The frameworks discussed could be applied to other contracting actions

Immediately, leveraging BOAs eliminates need for **INDIVIDUAL PROGRAM OFFICES** to conduct **ADDITIONAL MARKET RESEARCH**

Note: This should **NOT** be interpreted as **NO** market research, rather this is a benefit of the BOAs and the support of the Platform One team providing continual market research.
